

Partie 05 — Corrigé

Répéter des opérations avec des boucles

Oskar Laverny

Table des matières

Exercice 1	1
Exercice 2	1
Exercice 3	1
Exercice 4	2
Exercice 5	2

Exercice 1

```
x <- c(2, 5, 8, 11)

for (val in x) {
  print(val^2)
}
```

Exercice 2

```
res <- numeric(100)

for (i in seq_along(res)) {
  res[i] <- i^2
}

identical(res, (1:100)^2)
```

Exercice 3

```
vars <- c("age", "tas", "score")
res <- setNames(numeric(length(vars)), vars)

for (nom in vars) {
  res[nom] <- mean(patients[[nom]], na.rm = TRUE)
}

res
```

Exercise 4

```
x <- 1000
n <- 0

while (x > 10) {
  x <- x / 1.5
  n <- n + 1
  print(x)
}

n
```

Exercise 5

```
categorie <- character(nrow(patients))

for (i in seq_len(nrow(patients))) {
  if (patients$age[i] >= 65) {
    categorie[i] <- "senior"
  } else {
    categorie[i] <- "autre"
  }
}

categorie2 <- ifelse(patients$age >= 65, "senior", "autre")
identical(categorie, categorie2)
```
